Offer excludes Home Equity Loans and Primeline HELOC. Loans with terms greater than 72 months or loans with balances over \$35,000 are also excluded. You must have made at least six (6) months of consecutive payments on your loan, and have a satisfactory repayment history. All loan payments must be current to qualify. Only one skip payment allowed every 6 months.

For loans being repaid by bi-weekly payroll deduction, the first two bi-weekly payments occurring in the month requested to be skipped will be deposited in your credit union checking account. If you do not have a checking account, the deposits will be made to your savings account.

Interest will continue to accrue during the skipped period, which will increase the term of your repayment period and the amount of interest you will pay over the life of the loan.
